

Basket Strainers - Steel

Above: Basket Strainer housing, metal construction.

Hayward's Model 72 Simplex Strainer has been the industry standard simplex basket strainer for over 75 years. It's perfect for industrial and commercial applications where the line can be temporarily shut down for strainer basket cleaning or changeout. (Duplex units are available on request).

Features include:

- Quick open cover – no tools needed.
- Heavy wall construction
- Large capacity baskets
- Machined basket seat
- Threaded drain
- Perforated stainless basket

Options include:

- Basket perforations from 1/32" to 1/2"
- Basket mesh from 20 to 400
- Viton, PTFE-encapsulated, or EPDM seals
- Vent Valves
- 1/4" NPT taps
- Magnetic Basket inserts
- Pressure differential gauge and switch

There is no better simplex basket strainer available on the market.
